Sept 11, 2002

Take a look at the (Union) Labor Management Agreements (LMA's) at  
the back of Your Policy & Procedures manuals and the Work Rules.

The standards you have were won by the Union for all workers.

If you don't find them there, ask your IS to print them out and put them in  
the back.

Being informed is your right as an employee. It is also your  
responsibility. Take time to look through the Policy and Procedures  
manual.

The Union is not an organization to join only when you are in trouble.

It is an organization to join if you want to improve your present work  
conditions for you and for other employees.

That is what we mean by collateral benefits.
